

# Flexible Abrasives - Flap discs

**PREMIUM OVERLAP flap discs**  
 for steel and stainless steel

### Application

- + For demanding grinding applications on different steel and stainless steel grades
- + For grinding hard-to-reach places

### Advantage

- + Ideal for finishing fillet welds, grooves and flutes thanks to the flaps which overlap by 10 mm
- + Very good stock removal and lifetime
- + Ease of use

### We recommend

- + Grit size 40/60 for high stock removal
