

Flexible Abrasives - Roller

PREMIUM rollers made of corundum fibre

for steel, stainless steel and nonferrous metals

Application

- + For cleaning, finishing, polishing or general grinding processes on uneven or curved surfaces
- + For removing welding marks, scratches and oxidation residues as well as for pre-treatment of the surface.

Advantage

- + Constant wear pattern for a consistently high-quality surface finish
- + Excellent durability
- + High cutting ability

We recommend

- + Grit size 40-80 for highest stock removal rate
- + Grit sizes from 100 for a perfect surface finish
