

# Cutting discs - Stationary cut-off wheels

## ★★ STANDARD cut-off wheels for steel

### Application

- + For machining different steel grades
- + For cutting workpieces with large cross-sections, solid material and profiles
- + Perfect for use for chop cuts on stationary cutting machines

### We recommend

- + Note maximum permissible peripheral speed (80 m/s and 100 m/s)

### Advantage

- + Especially rough side surfaces thanks to a special pressing process, as a result low lateral friction and no discolouration on the workpiece
- + The product offers very good cutting ability and lifetime
- + Reduced working times

Form	Type number	Dimension	Specification	PU	
	41	390531	300 x 2,5 x 25,4	A46S-BFSSTEEL	10 Pcs.
		390532	350 x 2,8 x 25,4	A46S-BFSSTEEL	10 Pcs.
