

Flexible Abrasives - SCM discs

PREMIUM SCM XC discs
without centre hole
 for universal use

Application

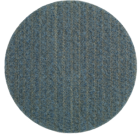

- + For removing rust, paint, lacquer and for repairing lightly damaged surfaces
- + For finishing, matting and blending with very little roughness
- + Best suitable for stainless steel and nonferrous metals

Advantage

- + Extremely long lifetime
- + Open structure prevents clogging and heat built-up
- + Very low vibrations thanks to the integrated centering hole
- + Free of corrosive elements

We recommend

- + Use on adjustable angle grinders
