

Flexible Abrasives - SCM discs

PREMIUM SCM discs HD
 for universal use

Application

- + For reducing surface roughness, removing paint residues, smoothing surfaces, cleaning and removing welding seams and deburring edges.
- + Machining of machinery for the chemical and food industries (production and maintenance), stainless steel furniture, shipyards, stainless steel scaffolding.
- + TN 34529674 and 34529678 without removable center hole

Advantage

- + High grinding power with low surface roughness
- + Best tool lifetime and high removal
- + Perfectly suited for heavy-duty applications

We recommend

- + Use on adjustable angle grinders
