

Flexible Abrasives - Quick-Change

STANDARD SOFTJOB minidiscs

for steel and stainless steel

Application

- + For grinding contours and profiled surfaces, for cleaning welding seams and for removing rust and paint residues using mini angle grinders

We recommend

- + Grit size 40/60 for maximum stock removal
- + Grit size 80/120 for fine grinding

Advantage

- + Easy grinding of hard-to-reach places
- + High flexibility thanks to wide application area
- + Saves working time
